

Coin operation and showering systems

Giving free and uncontrolled access to the showers is not an option for you as a leisure operator.

Unlimited showering will be a concern for you with regards to water consumption, heating and cleaning charges. Long queues for the showers can cause unnecessary source of irritation for the customer.

Coin operation and showering systems, with or without use of money, can help you prevent these problems. Coin operated showers are simple, relatively inexpensive and highly effective.

We have several options available .

The coin operation and/or showering systems are manufactured by ourselves. With a self selected image on the wear and water resistant film on the front you can give unit a unique look.

These examples speak for themselves!
You can opt for an internal or external unit.
